INTRODUCTION

This white paper is a reader-friendly description of a decentralized BEP-20 smart contract based cryptocurrency.FlokiCoke is built on the Binance Smart Chain and is one of the first Floki meme token projects to work collaboratively with a manufacturer to produce coke. FlokiCoke aims to be the most known and most used cryptocurrency in the soft drink industry.

The use of technology will facilitate a financial revolution that will leave everyone more financially connected, empowered. The aim of Floki Token is to provide security, Transparency, High limits cash deposit and withdrawal, and better odds. In short, Lumos Token is a solution base ecosystem in a single form.

FlokiCoke is distinct from other meme tokens in that it will have tangible assets and will be able to earn real profitability. Profits from the sale of coke and NFT will be used to buy back $FlokiCoke tokens, raising the token price further and further.

The meme culture of FlokiCoke is strong. Our community adores and lives for memes, and we feel that harnessing the power of memes is the only way to genuinely bring cryptocurrencies mainstream and secure widespread adoption.

Airdrops, CEX, and digital marketing will each receive 5% of $FlokiCoke tokens. In addition, 4% of every $FlokiCoke transaction is used for direct marketing purposes. This enables us to boost our marketing expenditure on a regular basis, resulting in a quick growth in brand recognition and the recruitment of new investors.

FLOKICOKE
Mission

VISION

We aspire to put "cryptocurrency in every portfolio." We envision a world where wealth-building strategies that were once only accessible to affluent individuals become available to everyone, transferring the power back to the people. FLOKICOKE is going to create a revolutionary ecosystem to bring more people into digital assets, helping to earn a passive income through holding the different currencies along with maintaining their privacy, security, power, and autonomy. We believe that through the power of collective decentralization, we can build affordable housing anywhere in the world, because that individuals have created a community and give it a purpose. FlokiCoke aims to be the most known and most used cryptocurrency in the soft drink industry.

VISI N

Values of FLOKICOKE Ecosystem

Community

Community is the number one value of the FLOKICOKE Eecosystem. In the beginning, we asked if a project could succeed on the back of a decentralized, community effort. Kemet prevailed due to the strength of its community members and investors. Our collaborative, Like-minded community is the bedrock of the project.

Utility

We believe utility is the foundation of value in the crypto space. FLOKICOKE was founded on the principle that the crypto space is greatly lacking in utility. We believe utility will foster adoption and growth in the crypto space, and FLOKICOKE believes to be the brand loyality reward system which people adopt due to its community focused nature.

Inclusivity

FLOKICOKE values providing everyone equal access to opportunities and resources.

Interconnectivity

Simply put, all parts of a system interact with and rely on one another. FLOKICOKE believes in creating an interconnected system based on trust and reliability,that together is greater than its individual parts.

FLOKICOKE HOLDING AND ITS BENEFITS

Holding an asset like FLOKICOKE is advantageous in cryptocurrency as it generates rewards by Holding the coin on any exchange and generates passive income. When a user Hold a coin and staking the pool, it is the easiest method to do, in a decentralized world. There is very sufficient energy consumption and stumpy probabilities of risks while Holding than any crypto mining. FLOKICOKE is here for you.

There are a few quantifiable benefits of Holding Token with FLOKICOKE Blockchain ecosystem:

NO HARDWARE IS REQUIRED

Unlike proof of work, there is no need of a specific equipment or hardware for crypto Holding. It works with no equipment requirements. The only requirement is to Stake the coin for an interval of time by the holders on any exchange

PASSIVE INCOME

Holders earn incentives by Holding and controlling their digital wealth. Passive income for the beneficiary is the reward of Staking.

SCALABILITY

In the Blockchain world, scalability is a concept that is often used. It refers to a computational process's potential to be used or generated in a variability of ways. Proof of stake protocols, as shown by FLOKICOKE higher transaction outputs and lower fees, make for greater scalability.

ECO-FRIENDLIER

One of the major benefits for Holding coins is that it removes the need for continuously purchasing expensive hardware and consuming energy.

MORE COST-EFFECTIVE

Holding are always inexpensive and less energy-consuming platforms with no particular and expensive hardware requirements. Unlike proof of work chains, PoS is more cost-effective and eco-friendly. So, the Holders can earn more passive income by using the FLOKICOKE platform.

HIGHLY SECURED WITH THE HELP OF SMART CONTRACT

The biggest issue in the modern world is security and privacy, and FLOKICOKE provides a swift and stable portal that is backed by the FLOKICOKE ecosystem making him superior to others. FLOKICOKE is offering a highly secure and fast platform to the users for Holding crypto.

FLOKICOKE BURNING

Auto-Buyback is a built-in smart contract function to automatically buy back & burn various amounts of $FlokiCoke whenever someone sells their tokens. This helps to stabilize the token price, which benefits investors more than manual buybacks.

In the early days, a continuous burn on a single protocol may be convenient, but it implies the burn cannot be limited or regulated in any manner. Burns that are managed by the team and elevated based on accomplishments assist to keep the community informed and rewarded.

The conditions and proportions of the automatic burn may be marketed and monitored. FLOKICOKE token intends to execute a long-term burn strategy that is both helpful and gratifying for people who participate. Furthermore, burns assist in rewarding and informing the community. The burn's circumstances and quantities are publicized and monitored. The entire amount of FLOKICOKE token burnt will be assessile to everyone to check, allowing for more transparency in determining the current circulating supply at any one moment.

FLOKICOKE NFT

FLOKICOKE Non-fungible tokens (NFTs) are one-of-a-kind, transferable assets created on the blockchain. These tokens may be connected to anything in the FLOKICOKE . Our NFTs' basic characteristics provide them a distinct value and categorically distinguish them from other forms of assets. These characteristics include verifiably uniqueness and indivisibility. Because the underlying code is transparent, the scarcity and ownership of any given token can be determined without the use of a trusted middleman. The rise of NFTs, in our opinion, is part of a larger paradigm shift away from centralized to decentralized systems.

This platform is now allowing makers of digital collectibles to experiment with new revenue strategies and use it as a payment system. Each underlying token has a genome that specifies its look, characteristics, and origin. FLOKICOKE cannot be duplicated or distributed without the consent of the user.

BENEFITS OF NFT

Non-fungible tokens have altered decentralised exchanges. Some of the advantages of crypto-currency include:

Ownership Rights

The primary benefit of non-fungible tokens is the ability to prove ownership. NFTs can assist in linking ownership to a single account because they are on a blockchain network.
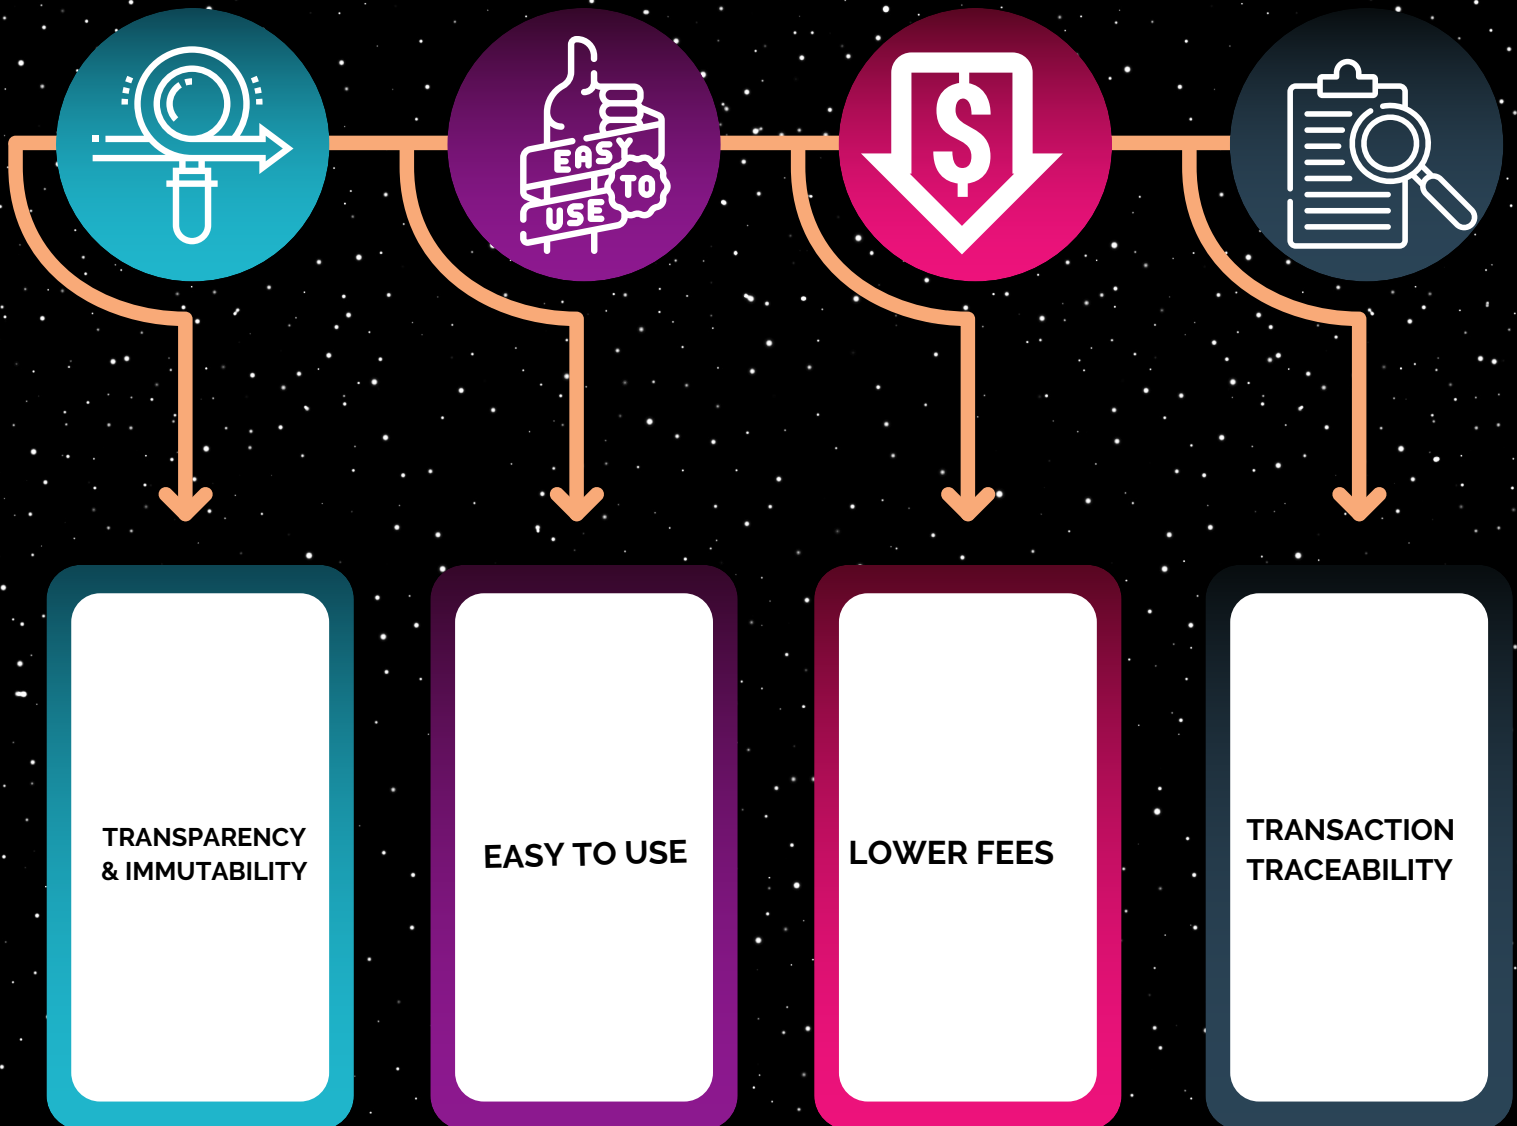

Authenticity

The advantages of non-fungible tokens are essentially determined by their rarity. NFTs are created on the blockchain, which means they are tied to one-of-a-kind data. The particular qualities of NFTs reveal their ability to add value. Simultaneously, NFT manufacturers have the option of releasing a restricted number of NFTs to create supply scarcity.

Fraud proof

They are easily transferred and unaffected by fraud.

WHY FLOKICOKE ?

TRANSPARENCY & IMMUTABILITY

EASY TO USE

LOWER FEES

TRANSACTION TRACEABILITY

WHY FLOKICOKE?

- ## TRANSPARENCY & IMMUTABILITY

Every time a token exchange is recorded on the Binance blockchain with FLOKICOKE, an audit trail traces where the tokens came from. This can not only help exchange-related organizations to improve security and prevent fraud, but it also helps verify the legitimacy of traded assets.

- ## RELIABLE & LOW COST

FLOKICOKE transaction fees are far lower than those charged by debit and credit cards, as well as wire transfers and BACS payments. The cost of usage is very low compared to other cryptocurrencys.

- ## ULTRA-FAST & SECURE

Since each new transaction is encrypted and linked to the prior transaction, FLOKICOKE are significantly more secure than conventional record-keeping systems. FLOKICOKE are made up of a complex string of numbers that cannot be changed. FLOKICQKE is immutable and incorruptible in order to protect it from faked data and hacks after it has been created.

- ## EASE OF USE

FLOKICOKE are valuable because of their ease of use. All you need is a smart device and an internet connection and you can begin trading using FLOKICOKE right away.

- ## HIGHLY SCALABLE

FLOKICOKE is built on one of the best blockchain platforms out there. It has excellent scalability.
